

SPEED QUEEN® MULTI-HOUSING LAUNDRY SOLUTIONS

Quantum® Gold Pro Control Washers & Dryers

QUANTUM® GOLD PRO

Dedicated to a Higher Standard

We are the world's largest commercial laundry company, with an undeniable history of proven performance and reliability. Property owners rely on the practical ingenuity of features designed to make their lives simpler and more productive. Our commercial-grade construction is rugged, dependable and built to last.

However, success in the multi-housing segment requires more than just dependable equipment. Speed Queen® technology takes convenience to the next level for residents as well as laundry service providers.

QUANTUM® GOLD PRO CONTROLS

Innovation Excellence

At its highest level, innovation simplifies, empowers and brings a more premium experience. That's exactly what Speed Queen has done with the Wi-Fi enabled Quantum® Gold Pro control, built specifically for the multi-housing market.

Quantum Gold Pro simplifies operation for residents through an intuitive cycle structure that walks them up through cycle options, from left to right. This makes it easier to utilize tiered pricing and reap the revenue boost from it. An increased return on your investment is just the beginning, as this control delivers several benefits, including:

A Premium Experience

Capacitive, or soft-touch buttons, offer a high quality experience that means less wear and tear on a key touchpoint of the machine. Every detail was considered in the development of this machine, even the white lights on the control, as consumer research has shown they equate the latter with higher quality.

Flexible and Powerful

With multiple actuations (coin, card, mobile) offered, Quantum Gold Pro gives laundry service providers unprecedented flexibility, while reducing add-on costs. Programming and audit capabilities are streamlined and made infinitely powerful utilizing Near Field Communication (NFC) with Android devices, opening access to advanced monitoring data when configured with Speed Queen Insights.

Factory-Installed Convenience

Quantum Gold Pro is a truly professional solution.

- Wi-Fi enabled
- Speed Queen Insights ready
- Delivered direct from the factory with a cashless networked and non-networked mobile pay solution already installed for convenience

The days of lining up brand new machines and drilling into them to attach a third-party system becomes a thing of the past. This plug-and-play solution is a gift of convenience.

Built for Reliable Performance

Front Load Washer

With revolutionary balancing technology, virtually imperceptible noise and vibration, incredible 440 G-Force extraction and a redesigned, 10-degree tilted control panel, Speed Queen front load washers are engineered and built to perform.

- Revolutionary balancing technology redistributes and balances even the most unbalanced loads.
- 2.5 times less noise and virtually imperceptible vibration reduce impact on neighboring residents.
- Increased 440 G-Force extraction speed reduces drying times.
- Durably designed to deliver long-lasting performance with features like a rugged suspension system, stainless steel wash tub and a dynamic balancing system.
- ADA Compliant.

ENERGY STAR® Certified Washer

Single Load Dryer

With an easy-to-clean large lint compartment and a reversible door to accommodate your laundry design, Speed Queen single dryers are designed to suit any laundry's specific needs. The 2.06 sq. ft. door opening is the largest in the industry, providing easy loading and unloading for residents.

- Durable galvanized steel cylinder with an extra-large 7.0 cu. ft. capacity.
- Quiet, efficient blower system.
- Secured and easy to clean upfront lint filter.
- Front access for easy serviceability.

SPEED QUEEN®
INSIGHTS
READY

Speed Queen Insights Technology changes the way you'll run your laundry room. Access all of your business data—financial, operational, customer, service, machine and maintenance—in a single 360-degree view, enabling you to make informed business decisions and grow beyond what you previously thought possible.

Top Load Washer

Speed Queen top load washers are constructed from heavy-duty components to ensure an extended life, including a stainless steel washtub, all-metal transmission and a commercial-grade cabinet finish.

- Commercial-grade stainless steel washtub standard.
- Curved four-vane agitator delivers an industry-best 210° wash stroke that produces unparalleled cleaning results.
- Extract speed of 710 RPM spins clothes out drier.
- Advanced suspension system eliminates the possibility of an unbalanced load issue.

Stack Washer/Dryer

Speed Queen's stack washer/dryers are designed to provide all of the power of Speed Queen washers and dryers, while occupying only half of the floor space of a conventional washer and dryer setup.

- Utilize the same connections and hook-ups required by a standard washer and dryer.
- Revolutionary balancing technology automatically redistributes even the most unbalanced loads for consistent cycle times, minimized vibration and reduced noise.
- Increased 440 G-Force extraction speed reduces drying times.
- Durable galvanized steel dryer cylinder.
- Easy-to-clean and secure upfront lint filter.
- Washer - ADA Compliant.

Stack Dryer

Get twice the drying capacity in the compact floor space of a single dryer with Speed Queen stack dryers. Combined with extra capacity for large loads, the stack dryer gets the maximum amount of work done without breaking the bank -- or your laundry design.

- Extra large capacity, 7.0 cu. ft. per dryer.
- 2.06 sq. ft. door opening is the largest in the industry, providing easy loading and unloading.
- 10-degree tilted control panel allows control visibility without bending down, improving the customer experience.
- Quiet, efficient blower system.
- Secured and easy to clean upfront lint filter.

The innovative Quantum Gold Pro control helps properties streamline operations and provides residents with a truly premium laundry experience.
